Contents Volume 67, 2002/2003

The George A. Kiersch Series on Principles of Engineering Geology

The San Fernando Tunnel explosion, California
R.J. Proctor 1

Research papers

Physical properties and textural parameters of calcarenitic rocks: qualitative and quantitative evaluations
G.F. Andriani and N. Walsh 5

Characteristics of seismic energy release of subduction zones—examples from Taiwan
F.S. Jeng, M.L. Lin, C.Y. Lu and K.P. Huang 17

Modelling of the bedrock response to glacial loading at the Olkiluoto site, Finland
K.-L. Hutri and J. Antikainen 39

Kinematic analysis for sliding failure of multi-faced rock slopes
W.S. Yoon, U.J. Jeong and J.H. Kim 51

Engineering geological characteristics of expansive soils in China
B. Shi, H. Jiang, Z. Liu and H.Y. Fang 63

Tunneling in squeezing rock, the Bolu tunnel, Anatolian Motorway, Turkey
S. Dalgıç 73

Analysis of cyclic swelling of mudrocks
O.J. Pejon and L.V. Zuquette 97

Influence of internal structure of crinoidal limestone on fracture paths
B. Van de Steen, A. Vervoort and K. Sahin 109

Cuttability of coal seams with igneous intrusions
R. Singh, A.K. Singh and P.K. Mandal 127

Exploring the continental shelf for low geological risk nuclear waste repository sites using petroleum industry databases: a UK case study
S. Stewart 139

Characterization of Eagle Ford Shale
S.-C. Hsu and P.P. Nelson 169

Settlement predictions in the Anatolian Motorway, Turkey
S. Dalgıç and O. S,ims,ek 185

Rock stress measurements and the state of stress at an open-pit limestone mine in Japan
S.-S. Kang, B.-A. Jang, C.-W. Kang, Y. Obara and J.-M. Kim 201

Research papers

Correlation of SPT–CPT data from the United Arab Emirates
N. Akca 219

Field measurements of shear strength of an underconsolidated marine clay
M. Karakouzian, B. Burçin Avar, N. Hudyma and J.A. Moss 233

Topography and volume effects on travel distance of surface failure
Y. Okura, H. Kitahara, A. Kawanami and U. Kurokawa 243

Geological features and landslide mechanisms of an unstable coastal slope (Petacciato, Italy)
F. Fiorillo 255
Modified rock mass classification system by continuous rating
Z. Şen and B.H. Sadagah 269
Geotechnical characterization and rockfall simulation of a slope: a practical case study from South Tyrol (Italy)
J. Schweigl, C. Ferretti and L. Nössing 281
Liquefaction-related building damage in Adapazari during the Turkey earthquake of August 17, 1999
M. Mollamahmutoglu, K. Kayabali, T. Beyaz and E. Kolay 297
The deformation evaluation of Kızlaç T3A Tunnel (Osmaniye, Turkey)
A. Özbek, S. Türkmen and M. Gül 309
The use of inclined hemisphere projections for analyzing failure mechanisms in discontinuous rocks
M.S. Lana and M.F.A. Gripp 321
A simple test and predictive models for assessing swell potential of Ankara (Turkey) Clay
Z. Abiddin Erguler and R. Ulusay 331
Anisotropy of rock elasticity behavior and of gas migration in a Variscan Carboniferous rock mass in the South Limburg, The Netherlands
A. Angabini 353
Marsh gas in shallow soils and safety measures for tunnel construction
Y.-Q. Tang, W.-M. Ye and Y. Huang 373
GPS-measured land subsidence in Ojiya City, Niigata Prefecture, Japan
H.P. Sato, K. Abe and O. Ootaki 379
Probabilistic and fuzzy reliability analysis of a sample slope near Aliano
C.I. Giasi, P. Masi and C. Cherubini 391

Discussion
How to obtain earthquake ground motions for engineering design: Ellis L. Krinitzsky
A.W. Hatheway 403

Corrigendum
Corrigendum to: "Correlation of TBM and drilling machine performances with rock brittleness" [Eng. Geol. 65 (2002) 269–283]
S. Kahraman 405
